

Kelsall Catamarans

KSS Boat Building Workshop

For Professional and First-time Builders

Denver, Colorado, USA

Thursday 25 August 2011 thru Sunday 28 August - 9am start

Lead by Derek Kelsall Hosted by Jonathan Chaikin

KSS = Kelsall Swiftsure Sandwich for Catamarans

Perfect round bilge hulls. Gel finish. No long-boarding.
Resin infusion is clean, odor free and produces high quality panels.
Huge labour savings. Simple, effective and economical.

KSS = State of the art in custom boatbuilding

Modular design for faster production and improved workspace management

Hands on training (pictures taken from 2010 Lenoir City workshop)

Start with a flat table

Add fiberglass and core

Infused flat panel

Central unit progresses -
alongside hull panels

Shaped with ease

Two half hulls waiting
to be bonded

Learn a lot of tricks that will not be covered in any DIY manual

Help build a 26' catamaran hull plus other parts. Four days of hands-on instruction & demonstration.

Join a group with a common interest, informal atmosphere, fun-to-be-with bunch of boaties.

Meet Derek face to face and ask him all your questions.

Get a real feel of what it takes to build a boat through the eyes of a master designer.

Cost for four days is US\$750
10% discount for payment by 1 August 2011
Coffee breaks and lunches provided
